Need a Strong Fall Protection Program?
Start with ANSI Z359!
Grainger Show 2022 - Orlando, FL | February 28, 2022

To build an effective fall protection program, the ANSI/ASSP Z359 Fall Protection Code provides a helpful starting point, with general guidance on fall protection program management, active fall protection system design, and fall protection equipment components and systems. During this session, attendees will learn how to leverage the guidance in the ANSI/ASSP Z359 standards to inform the development and maintenance of an effective and compliant managed fall protection program.

Bottom Line:	ANSI/ASSP Z359 provides guidance to manage your fall protection program, reducing risk for employees and owners.

KEY TOPICS

• **Introduction**	Are You Aiming for Compliance, Safety or Risk Management?
	Gap Analysis: Where You Are vs. Where You Want To Be
